

## AP Language Grading Policy

All assignments carry specific point values. Your overall grade will be based on total points accumulated throughout a marking period.

**Make-Up Work** is the responsibility of the student. Most assignments are given out well in advance of their due dates. Schedules are available on the classroom website.

**Vocabulary is** due each Friday. If we are not in school on a particular Friday, then that week's lesson will push back to the following Friday unless otherwise stated in class.

**Short turnaround homework** will generally be worth 5 points. Examples of short turnaround homework include Harkness reflections and study guide questions.

**AP Prompts** are scored using AP rubrics.

**Harkness Seminars.** One of the most important aspects of this class is the Harkness Seminar. You must learn how to use a text to create, defend, and refute arguments. Harkness grades will be cumulative throughout the marking period.

**Major projects, assignments and essays** will hold various point values. Students will be made aware of these values.
