

GRP Reflection

Value: 10 points.

What did you learn? What did you learn about your topic? What was your favorite discovery? What do you know now that you didn't know before?

The reflection is due on 12/20. I will collect the reflections independent of the projects so please keep your reflection separate from your project. I expect a minimum of one-page, typed, 12-point font, double-spaced. If you would like to write more, then please do so.

Point Recovery

Value: 5 points

To alleviate some of your stress over the prompts, I will give you various opportunities to earn back points.

For this opportunity, you can earn 5 points. For the W.E.B. DuBois' multiple choice questions, analyze the questions and answers. In other words, tell me why the right answers are the right answers and why the wrong answers are the wrong answers. You must do this for all of the questions.

Example:
